Tais morning a private of the Hongkong Regiment fired four shots from a revolver at a sergeant of the same regiment, while on parade. Notwithstanding the fact that there were only a few yards between the two mer, none of the shots proved fatal. The first shot asems to have graved the Sergeant's head, the next one entering, his body on the right side, the other two inflicting comparatively little injury. It was at first supposed that the first shot would prove fatal, but it is now believed that the Sergeant will recover.) best interests of all concerned. You may By Profit and Loss remember that at the time it was necessary to get more money. Every effort was made to raise the required amount on debentures under the same conditions as the previous issue, but without success. You must bear in mind the position of the Company at the time. The contractor had refused to go on with the building without money; a forced sale of the Mountain View property would have shown a more serious loss then than it ultimately did; the shell of the Hotel would probably have fetched less than the value of the bricks in it. The Directors had to decide whether they should face a less not only on the outside building operations but on the Hotel itself. They did not want to lend the money themselves, and if they had had anything to suggest they could have called a meeting and put it forward. Mr Fenwick, the largest debenture holder, was very pleased at the time and said we had done our best for the Company. Indeed, considering that to get the money I had to become personally responsible for the whole amount, and that by so doing the debenture holders received interest up to the end of 1892, you can soarce. ly complain on that score. If you decid to close up the Company I will give you every facility for doing so without wasting your money. I would advise you to call a meeting among yourselves and discuss the situation.
